

AKASH HALDER

Full-Stack Web Developer (MERN) | Kolkata, West Bengal, India

+91 8250014659 | halderak294@gmail.com | linkedin.com/in/akash-halder | github.com/Developer-Akash

SUMMARY

Full Stack Developer (MERN) with proven experience building and deploying scalable web applications. Skilled in RESTful API design, CI/CD pipelines, cloud deployment on Vercel, and Agile workflows. Hackathon winner with a track record of shipping production-ready software quickly and independently.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), HTML5, CSS3, SQL, Python, Java
- Frameworks & Libraries:** React.js, Node.js, Express.js, Bootstrap, Tailwind CSS
- Databases & Tools:** MongoDB, MongoDB Atlas, SQL Databases, Git, GitHub, NPM, Vercel, VS Code, REST API, JSON, CI/CD Workflows
- Concepts:** Full Stack Development, Agile Methodology, CRUD Operations, MVC Architecture, Responsive Design
- Soft Skills:** Problem Solving, Team Collaboration, Quick Learner, Attention to Detail, Agile Mindset

EXPERIENCE

Web Development Intern (Full Stack) — 3Skill

May 2026 – Jul 2026

Remote

- Built full-stack features with the MERN Stack in an Agile team, delivering sprint goals consistently.
- Designed and integrated RESTful APIs with Node.js and Express.js following scalable backend best practices.
- Maintained CI/CD-friendly GitHub workflows and deployed frontend modules on Vercel for production delivery.

ACHIEVEMENTS

- Winner — Technothon 2026:** College-level Hackathon; built and delivered a complete project under competition constraints.

BEST PROJECTS

SnapEats — Food Delivery Web App

MERN Stack, Full Stack

- Engineered a production-ready food delivery platform with end-to-end order management and full CRUD functionality.
- Designed and integrated 20+ RESTful APIs using Node.js and Express.js with JSON-based data exchange.
- Built a fully responsive UI with React.js and Tailwind CSS; added real-time live order tracking.
- Deployed on Vercel via CI/CD GitHub workflows with MongoDB Atlas for cloud-based storage.

Open Smile — AI Rewards Platform

AI Unleashed Hackathon

Next.js 15, Python FastAPI, Supabase (PostgreSQL), Better Auth, MediaPipe

open-smile.vercel.app

- Built a gamified rewards platform where an on-device MediaPipe model scores smile authenticity in real time, converting scores into a coin economy redeemable for gift cards.
- Architected a Python FastAPI backend alongside Next.js, with an append-only coin ledger, anti-cheat capture validation, and Supabase Realtime leaderboards.

EDUCATION

Master of Computer Applications (MCA) — Techno India University

2025 – 2027

Kolkata, West Bengal

Bachelor of Computer Application (BCA) — Malda College

Aug 2022 – Jul 2025

Malda, West Bengal

CERTIFICATIONS

- Android App Development using Kotlin — Spoken Tutorial, IIT Bombay (2024) | Score: 80%
- Sigma 4.0 — Complete Full Stack Development with DSA — Industry Certification | MERN Stack, REST APIs, DSA
